

## Scarface "In Cold Blood"

Visit "[In Cold Blood](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I started small time, dope game, pushin' on the corner  
Twenty cent cook up, fifty flippers if you want 'em  
Full of formaldehyde, my clothes wreakin' marijuana  
Cops rollin' up on us, my neighborhood's like a sauna  
Pistol grippin', insurin' won't nobody run up on us

But if they do, fuck 'em, we murderous nickel-dome  
'em  
I ain't playin' no games, I'm on a mission fo' the change  
Motherfuck bein' a lame, I'm ten toes in the game deep  
I can't slip, this whole world want me sleep  
See I hustle like a predator and prey on the weak

And playin' for keeps, 'cause see, it's a thin red line  
Between a nigga gettin' his, and me gettin' mine  
And plus I'm a nigga with that feelin like it's my time  
And anybody standin' in the way of that is dyin'

I bust nine, how many times I gotta warn you?  
I ain't the one, be pushin' buttons in the sight of my gun  
I'm the real live version of the Corleone family  
So I spit this clearly, so you hoes'll understand me

One wrong move, and I'm a have to leave you for the  
goons  
Catch you slippin asleep in your bedroom and then  
Get you Audi, now what the fuck was this dude thinkin'?  
You can cheat the rules of the streets, and not leave  
stinkin'?

I can squeeze without blinkin', I'm a cold blooded nigga  
Bank robber I'm a natural born killer  
Drug dealer, anything it took to survive  
Even if it took a nigga to die, I'm a gangsta

I got a brick from a sucker that he wanted to move  
But the whole while I'm cookin I'm like, fuck this dude  
It's on, thirty-six zones of my own  
Keep the money fo' myself and take the work back  
home

Call that nigga on the phone I just got knocked

And the cops was askin' 'bout you, come get me hot  
Never showed, so fuck him and the money that I owed  
I got a get rich quick scheme, steppin' on the dough

It's cold, but that's it, I'm on it like I want it  
And twenty-eight cash and change, the whole game on  
it  
That means I'm on my feet and I can front the homies D  
Break 'em off a couple of C, and double up they fee

Takin' over, shoot up they spot, make it hot  
And when the cops dry it out, put my work on the block  
And if they wanna ride for they corners we ride right  
with 'em  
Dummy move, whole thing, the goon squad get 'em

I can squeeze without blinkin', I'm a cold blooded nigga  
Bank robber I'm a natural born killer  
Drug dealer, anything it took to survive  
Even if it took a nigga to die, I'm a gangsta

No mo' petty rock hustlin', I'm in for the run  
And I'm fo'sho I'm gone' be murdered for this shit that I  
done  
But I'm a die standin' up 'cause I'm a stand up nigga  
Fuck dyin' like a bitch on my knees, I'm a killer

So don't nobody cry 'cause I was destined to get it  
Just remember, I'm the one who took the dope game  
and flipped it  
And pimped it, and destroyed everything in the way  
Of me seein' first motherfuckin' light of the day  
A trigger man, deadly as fuck with a loaded AK

Spot my enemy and kill him the American way  
I turned a dream into reality, with a fuck you mentality  
Silencin' all these niggaz in the neighborhood who  
challenged me  
Family grievin' from they loved one's mortality  
He ain't got a reason to die then kill him

I can squeeze without blinkin', I'm a cold blooded nigga  
Bank robber I'm a natural born killer  
Drug dealer, anything it took to survive  
Even if it took a nigga to die, I'm a gangsta  
Right
