"From Earth I Rose"

Darkness was my light
Muteness was my tongue
Death was my life
Matter was my spirit

I am a brother to the fire
To fire a brother I am
From breasts of maidens three
I drank the black milk
Devoured the white milk
I swallowed the red milk

Brother to the fire I am
Brother to the fire
Brother to the fire I am
Brother to the fire
Darkness was my light
Muteness was my tongue
Death was my life
Matter was my spirit

I've lain in the dark bowels
Bowels of this marshland
Dead beneath the soil
Under the waters
Oblivious to all
Devoid of all knowing

Brother to the fire I am
Brother to the fire
Brother to the fire I am
Brother to the fire
To the fire
