We craved the light
From the darkness
It's a morning of misfortune
The dawn of a mankind

Listen to me
Instead of a blind folk's speak
Forget the mature plan
We are but humans you'll see

I can hear the silence
See invisible emptiness
Tarnish the halo of your guidance
And the night is over

And the night is over
And the night is over
And the night is over

Oh yeah

That women in grief
Luxurious Gehenna
And what I have become
What I have done to you, yeah

Listen to me
Instead of a blind folk's speak
Forget the mature plan
We are but humans you'll see

I can hear the silence
See invisible emptiness
Tarnish the halo of your guidance
And the night is over

And the night is over
And the night is over
And the night is over

I can hear the silence
See invisible emptiness

Tarnish the halo of your guidance
And the night is over
