Verse:

Empty pages tearless eyes
A blackened heart and senseless lies
Broken are the moon beams when the sun comes out at
night
Still as the voice just within my sight

Pre-chorus:

Oh, the oceans around me (4x)

Chorus:

Come in
Come back
You've left me desolate
I always knew the stars would fall
And pierce my heart but I never thought
God would love me
Even when I walked away

Verse:

He walked away in the sadness
The flowers withered in the madness
It's dark and hopeless
So what are you going to do?
Grasp me, tear me away from these

Pre-Chorus

Oceans around me (2x)

Bridge:

Black as the universe
You shine like the stars
I'm standing here wondering who You are
You're amazing! (2x)
