This static hit the airwaves
This gimmick hit the big time
We bought these masks in California
Were thos plastic surgeons are the crime
Liars and fakers are good money makers

Two-faced, double crossed, and vacant
We started a suicide cult today

Would you follow each other to the next big thing? Of
shooting yourself in the face
And killed ourselves for the cliché
Would you bleed yourself dry? Just to live out that lie?
And for one empty embrace
Are you sedated? Are you emaciated?
Bulimic and hostile
