I can wonder  
What will happen  
I can wonder all day long  
But what can I do?  
I can think and think  
When will it all come true?

Cause maybe there's a paradise on earth  
And maybe I can find out just what I'm worth

I can dream  
That you are perfect  
And then you wouldn't be somebody else  
I can use you  
For my worship  
But honey, what would be the purpose?

Cause maybe there's a paradise on earth

And maybe I can find out just what I'm worth  
Yes I can, yes I can, yes I can

I can wish for? up above  
But then I don't know where  
To wish  
I can wish for something much better  
But what could be better than this?

Cause maybe there's a paradise, right here on earth  
And maybe I can find out just what I'm worth  
Yes I can, yes I can
