She got lightning in her hair
She's been cornered by the man
I pretend that this ain't riotous
We hit it on the hill, we ran

Fuel emission with the passion fighting still, we ran

Do you know the way to the silver covered road
By the city that's run dry
On a secret covered horse
And they're waiting for us to arrive
200 naked pure gold girls
And then I sit and watch them ride

Made her crystals in the sand
If you want a taste you can
By the city where the people are alone
She got lightning in her hair
She's been cornered by the man
I pretend that this ain't riotous
We hit on the hill, we ran

Fuel emission with the passion fighting still, we ran

Do you know the way to the silver covered road
By the city that's run dry
On a secret covered horse
And they're waiting for us to arrive
200 naked pure gold girls
And then I sit and watch them ride

Do you know the way to the silver covered road
By the city that's run dry
On a secret covered horse
And they're waiting for us to arrive
200 naked pure gold girls
And then I sit and watch them ride
