These girls fall like dominos (repeat)

As soon as I love her it's been too long
Talks of future with you caves me in
Swallow my sugar kiss and eat it alone
Hearts collide and smash any dreams of love

These girls fall like dominos (repeat)

Three words we shared said too early on
Start with forever float upon a tear
Swimming with the fear where we slowly drown
Ending at never, a haunting melody

As soon as I love her it's been too long
And I really loved breaking your heart
These silver apples will shine on I was wrong
The hottest love has the coldest end,

These girls fall like dominos (repeat)
