Follow me down to a place they call Bubble Town
I go there every night, the city's lights
Oh Mister Sandman brought me a dream last night
Thank you Mister Sandman, she'll be mine tonight

And she's sitting next to me
And she's sitting next to me
And she's laughing near me
And she's sitting in a tree

Take me down with you, take me down with you sir
I want to go where you go and I want to,
I want to know what you know
Oh Mister Sandman brought me a dream last night
Thank you Mister Sandman, she'll be mine tonight

And she's sitting next to me
And she's sitting next to me
And she's laughing near me
And she's sitting in a tree

And she's sitting next to me
And she's laughing near me
And she's sitting in a tree

Good Night Mother
