You're under sheets
A tepid wall
A luke warm shield of sheets
Your insides are frozen
From past defeats
Well, let go, and

Trip if you have to (Won't you fall?)
Trip if you have to (Fall for me)
We're almost there babe (Won't you fall?)
This road we're traveling (Fall for me)

And just forget about this telephone sinkhole
And just forget about this sexual overtone
Let's just cut right down to the bone
And let go

Well, we know what you want
Baby, Baby, Baby, I know what you need,
Yes I do
Let's turn our leaf
And shelter underneath
Yeah
Shelter underneath you

And just forget about your adolescent romance
And just forget about your fear of the fast dance
Let's take it off, down and take a chance, and

Trip if you have to (Won't you fall?)
Trip if you have to (Fall for me)
We're almost there babe (Won't you fall?)
This road we're traveling (Fall for me)
It's our own

We'll get through - we must get by
Slow dancin' through the night
Then we'll spin until we fall
