Nice truck, Nice tan  
That's what every girl loves  
But I love my man  
Nice legs, nice strut  
That's what every guy wants  
But you want what I got  
Now I slam that closet and  
Run down the hall  
Jump on the bed and  
Bounce off the wall  
I dance on the floor  
Kick open the door  
When you walk into the room  
My heart goes Boom  
BOOM BOOM BOOM  
I am the honey, you're the bee  
I am the branch, you are the tree  
I am the wave, you are the sea  
Yea, you are everything to me  
I am your sun, you are my sky  
You are the beauty to my eye  
You are my wings you make me fly  
To every question you're the why Ohh  
You're all that matters  
Yea you're all that matters  
You're all that matters to me  
Nice touch, nice kiss  
It's too good to be true  
When it feels like this  
Nice hands, nice guns  
When it gets this good babe,  
It must be love  
Now I slam that closet  
And run down the hall  
Jump on the bed and bounce off the wall  
I dance on the floor,  
Kick open the door  
When you walk into the room  
My heart goes boom  
BOOM BOOM BOOM  
I am the honey, you're the bee

I am the branch, you are the tree  
I am the wave, you are the sea

Yea, you are everything to me  
I am your sun, you are my sky  
You are the beauty to my eye  
You are my wings, you make me fly  
To every question you're the why, Ohh  
Your all that matters  
Yea your all that matters to me  
You're all that matters to me  
When two hearts beat together  
And we move in time  
And our bodies are in sync  
And your lips want mine  
Don't get much better  
Don't need to dream  
'Cause when you're right here  
I got everything  
Nice moves, nice show  
Baby, they don't make 'em  
Like you no more  
Now I slam that closet  
And run down the hall  
Jump on the bed and bounce off the wall  
I dance on the floor  
Kick open the door  
When you walk into the room  
My heart goes boom  
BOOM BOOM BOOM  
I am the honey, you're the bee  
I am the branch, you are the tree  
I am the the wave, you are the sea  
Yea you are everything to me  
I am you sun, you are my sky  
You are the beauty to my eye  
You are my wings  
You make me fly  
To every question, you are the why, Ohh  
Your all that matters  
Yea your all that matters to me  
Your all that matters to me
