No filter!
The ladies enter for the big fellow
The definition of no filter
Is I say what the fuck I wanna say
When I wanna say it!
No matter who's listening!
The truth is,
Half of these niggers gonna fuck with me anyway!
So what a fuck am I losing?
Fuck ya all!

Chorus: (x2)
No control, only thoughts I've been thinking
No filter with my words I just serve you what I'm
thinking
And please don't be mistaken, it's not only when I'm
drinking
When I choose to share mental, it's a problem in the
making.
Feel me nigger!

I ain't never been one to bite my tongue
I see the very first thing I'm thinking just for fun
I call it whiskey votes, the thoughts that whiskey born
If that's the way I feel, then that's what I'mma talk!
Most of what I say, turns around and bites me
But I don't give a fuck, cause I don't really fuck with me
They say I say thanks that don't really need to say
But if I hold it back, then it means I'm being fake
I'm in a pit with snakes, .. bastards filled with hate
But I'm trying to feel my blade, so it's really no escape.
Maybe this is fake, I can be the voice of reason
,where it pays for you to be this even.
This , open season ..these pussies when they speak to
me
I don't get no closer to these niggers than I need to be.
That was my mistake, niggers first go around
No knew for no feelings in this business so I'm showing
off
Feel me nigger!

Chorus: (x2)

No control, only thoughts I've been thinking
No filter with my words I just serve you what I'm
thinking
And please don't be mistaken, it's not only when I'm
drinking
When I choose to share mental, it's a problem in the
making.
Feel me nigger!

Mind of a maniac, the pictures where I'm living at
Rhymes of a braniac, now that I remember that
I'm defined with these rhymes and the way I act
..are the time in every rap.
All the time left you..
That's the reason I'll be drinking,
I'm just drinking, drinking hard!
Though I try to write these,
But these.. bring up memories
These memories bring up violence,
That I'm trying to keep within me
So I'm hoping that you hear me
Better yet, you're feeling me
I'm trying to give you niggers
Separate ways how to deal with me!
Always keep it real with me, keep your shit tight
Lying is the number one reason I react become a silver
bag
Introduction to this animal, no columns for no sucker
shit
The shit is not understandable,
I'mma keep it with my hustle that's the motto of the
hood
.. I wish a nigger would
I ain't up to no good, I'm just trying to chase a dollar
What you're talking? Are you coming, or it just might be
a problem.
Feel me nigger?

Chorus: (x2)

No control, only thoughts I've been thinking
No filter with my words I just serve you what I'm
thinking
And please don't be mistaken, it's not only when I'm
drinking
When I choose to share mental, it's a problem in the
making.
Feel me nigger!
