"I Love You"

Visit "[I Love You](#)" on MotoLyrics.com

All the ways I have to go
I wanna go with you.
All the things I have to do
I wanna do with you.
And all my dreams of you
Will come true with you.

All the hope of a better world
Will you make come true.
All the joy of this one world
I will share with you.
And all the love that I can bear
Is the love of us.

I love you
I love you
I love you
my darling, my babey, my girl.

I love you - oh I love you
I love you - believe me so I do
I love you - forever and a day
till the falls down and breaks away.

I love you.
