"Sailing In Vain"

I was sailing just a little in vain
Was sailing not too far from my brain
A little in vain
Sailing just a little in vain

He was looking for the girl went away
Was searching who was not feelin' the same
Was looking for chains
Sailing just a little in vain

My girl, she said "I gotta go away"
An' I have cried like a children insane
A little in vain
Sailing just a little in vain

Hey, hey just a little in vain
Hey, hey just a little in vain

My red cat was in the kitchen
He's looking for same meat yeah
No one seemed to care him
But he was waiting anyway
Sailing just a little in vain

Everyone has done a big mistake
But few of them has asked himself
If they could find another way
It's sailing just a little in vain

Sometimes I catch myself on the line
And ask me if it's all going fine
Am I sailing in vain
Sailing just a little in vain

Sailing just a little in vain
Sailing just a little in vain
Just a little in vain
