Get your guns and load them, Head all into downtown.
Looking for some Negros, where it comes our way.
Hail!
We're gonna make it happen, take the world back our
own
Way! Fire all the guns at once now and save the white
Race!

It's starting like a lightening - the racial holy war!
Reason becomes the time and the present's?. Hail!
We're gonna make it happen, take the world back our
own
Way! Fire all the guns at once now and save the white
Race!

Like a true aryan child we were born, born to be white
And we can reach so high - white race never dies! Born
to
Be white! Born to be white!

Get your guns and load them, Head all into downtown.
Looking for some Negros, where it comes our way.
Hail!
We're gonna make it happen, take the world back our
own
Way! Fire all the guns at once now and save the white
Race!

Like a true aryan child we were born, born to be white
And we can reach so high - white race never dies! Born
to
Be white! Born to be white - alright!

Like a true aryan child we were born, born to be white
And we can reach so high - white race never dies! Born
to
Be white! Born to be white! Born to be white!
