You try to tell me you got some fun-I know what it is
And I don't want none! You play your game with a
loaded
Gun... Once you've done it!

I don't need the stuff you got-You can't fool me, it
Ain't too hot! I can make it without a shot... And I
Don't't want it!

You're a junkie-Don't talk to me! You're a junkie-You
Can't break free! You keep on pushing, you got no
Right... To broad daylight!

With a needle in your arm-You do yourself nothing but
Harm! You think it's cool, but it's got no charm... To
Make it

Why you do it to kill your pain? Don't you know it's
All in vain? If you keep on, you'll go insane... You
Can't fake it!

You're a junkie-Don't talk to me! You're a junkie-You
Can't break free! You keep on pushing, you got no
Right... To broad daylight!

You think you can make it, but that's a lie-None of
Your kind gets out alive! China white is a suicide...
To play with!

Heroin, it's an ugly wife-You're dancin' on the egde
Of the knife! And in the end you got only your life...
To pay with!

You're a junkie-Don't talk to me! You're a junkie-You
Can't break free! You keep on pushing, you got no
Right... To broad daylight!
