Everbody wants something, no one has-The further the  
Field, the greener the grass! Talking with words they  
Don't understand-No-one needs to, no-one can!

Troubles every night, troubles every day-There's  
troubles  
In the city, troubles all the way! Troubles every night,  
Troubles every day-There's troubles in the city,  
troubles  
All the way!

If you're feeling sick, you're gonna get pills-If you're  
Driving drunk, you're gonna get killed! And if you don't  
Vote, you're gonna lose-But if you do, you'll get  
abused!

Troubles every night, troubles every day-There's  
troubles  
In the city, troubles all the way! Troubles every night,  
Troubles every day-There's troubles in the city,  
troubles  
All the way!

Somebody tells you and you play dead-Somebody tells  
you  
And you give head! Someone has the strings and  
complete  
Control-There's somebody out there, who own's your  
soul!

Troubles every night, troubles every day-There's  
troubles  
In the city, troubles all the way! Troubles every night,  
Troubles every day-There's troubles in the city,  
troubles  
All the way!
