Standing in the haven when the boats arrive-With a raff
Inside they're like pigs in sty! They think, they could
Come and take the White man's place-They think, they
can
Step on the masterrace!

Hey nigger! We're ready when you are? Hey nigger!
You
Won't get far!

They take our jobs, they take our land-Before we know
We'll eat from their hand! This way our nation will fall
To blacks-We gotta be brave enough to take it back!

Hey nigger! We're ready when you are? Hey nigger!
You
Won't get far!

We must stop the scum right at the border-niggers
have no
Place in our white order! To let'em walk free would be a
Big mistake-We cannot just watch when our culture is
on a
Stake!

Hey nigger! We're ready when you are? Hey nigger!
You
Won't get far!
