

Scarling "Hello London"

I am aching you are still
Don't find you arrogant
Fascinated - Unfulfilled
While People far away wish me harm - they wish me ill
Not you, Kiss you on the mouth oh yes - oh yes I WILL!

We are paranoid
All our friends agree
Lately I've forgotten you
Know you'll remember me
Cause I am spinning round and round like a record in
your head
Seizing your subconscious until you wish me dead

Hello LA
With your mesmerizing stare

I know I'm not in love with you
Though I highly doubt you care
While people crowd your streets - choking on your
poisoned air
Not me, kiss your dirty mouth oh yes- oh yes I DARE!

We are paranoid
All our friends agree
Lately I've forgotten you
Know you'll remember me
Cause I am spinning round and round like a record in
your head
Seizing your subconscious until you wish me dead.....
