System own them
Babylon control them
System own them
Babylon control them
System own them
Babylon control them
System own them
So Johnny Power control them

They are loving
All manner of ungodly things
They're committing
All types of deadly sin

System own them...

All that I can see
Pain and strife in the city
Men working in iniquity
To achieve only vanity

System own them...

Prepare yourselves
Prophecy fulfill
For where the wise men never trod
Fools they go rushing in, watch them

System own them
Babylon control them
System own them
Babylon control them
System own them
Babylon control them
System own them
So Johnny Power control them
