TWO DREAMS MET

Mitchell Ayres

Two dreams met
They knew of two hearts that were lonely
That could be so happy
If only they found romance
Two dreams met
They said we must go out and find them
And then as we tiptoe behind them
We'll make them dance
A band was softly playing,
Sweet music filled the air
"Turn around," my dream kept saying;
I did, and you were there,
Then two hearts met,
A beautiful love affair started
The dreams winked their eyes and departed
They knew that their work was done
For two lonely hearts were one
