(mmm, who's that boy standing there?
I think I want to get to know him)

Started as boys and girls, one day making news
We spoke and then we knew something very new
Sodas to tropical juice, I knew it was true
Tonight the perfect moon will shine on

Summer love ola
I can feel my heart beating
Summer love ola
The temperature is uprising
Summer love olala
Tell me what we are feeling
Summer love ola
I know I'm in love with you boy

(doo doo doodoo doodoo dooledoodoo ooh hoo)

When I'm in the air, jump
No need to fear, jump
Jump into this love
No need to stop now
Feel the carnival
Join the festival
Stomp and stomp your feet
To the rhythm now

Summer love ola
Can you feel my heart beating
Summer love ola
A rhythm is high repeating
Summer love olala
Tell me your love is reaching
Summer love ola
I know I'm in love with you boy
