As we're sitting here staring each other down
you open up your mouth let your lies spew out
what are we doing here it's wrong can't you see
you wanna leave me here, and forget about me

You look me, in the face
Tell me I'm, your disgrace
you say that you're the victim
I say you're full of shit

all the times you stuck me here
and put me on my own
I feel the same that's why
I've got a bullet with your name

As were sitting here staring each other down
I remember how you used to kick me around
look deep in my eyes come take all my pain
I only have just one bullet with your name

You look me, in the face
Tell me I'm, your disgrace
you say that you're the victim
I say you're full of shit
all the times you stuck me here
and put me on my own
I feel the same that's why
I've got a bullet with your name

I feel the same
GET THE FUCK AWAY!
yeah from me
yeah

Look deep in my eyes
come take the pain from me
all I ask of you
is to get away from me

You look me, in the face
Tell me Im, your disgrace
you say that you're the victim

I say you're full of shit

all the times you stuck me here
and put me on my own
I feel the same that's why
I've got a bullet with your name

all the times you stuck me here
and put me on my own
I feel the same that's why
I've got a bullet with your name

yeah from me
yeah.....
