

Scars Of Life "Nothing Left"

Another day passes by and still no change inside
I question what my life is for scaired of the answer
I lock myself away from you
no one will ever know
And all you see is just cover for the pain inside
(Save me! There's nothing left of me! Nooo)
Bring me till there's nothing left of me
Im falling faster I cant escape

What's this thing that they call love I still don't know
how it feels
So full of scars I can't let go
it hurts to think its all real
I wait for another tomorrow in hopes this all will heal.
(Save me! theres nothing left of me! Nooo)
Bring me till theres nothing left of me
I'm falling faster I cant escape

I can't escape
It brings me down.
(So I)
Find a way
(Where no one can see the pain inside)
Will it end will it ever end
Bring me down there's nothing left of me
I'm falling faster
I cant escape
(Down)
I cant escape
(down)
I can't escape
