No one else is here
Just some sounds of silence that I do not fear
I'm counting every store
I wonder where you are
Have you forgotten I'm the one you once adore?
I remember when you said
I like you when you do that thing with your dread
You wanted me to stay I knew it would be late
And by that time we're standing here adored
And I was scared although I wanted you some more

I realize you so hard to know and I wonder where we
are (I can hear you
Calling)
And you will never be the same but you remain
You're always in my heart
And I can hear you calling
I can hear you calling now
I can hear you calling
Dam dam dam
I can hear you calling now

It's easy us to fall
But not to lose your pride
They say it's best for all
What more can I say?
I miss you everyday
And I wonder will we ever be alright
It feels like everything is here for you tonight

I realize you so hard to know and I wonder where we
are (I can hear you
Calling)
And you will never be the same but you remain
You're always in my heart
And I can hear you calling
I can hear you calling now
I can hear you calling
Dam dam dam
I can hear you calling now

I figured we'll be fine now
Forgiving all the time we've spent
And I thought this you'll be mine now
But now we're nothing more than friends
No... we're just friends

I realize you so hard to know and I wonder where we
are (I can hear you
Calling)
And you will never be the same but you remain
You're always in my heart (I can hear you calling)
And I want you to know
I miss you so and I wonder where we are
Do you ever think of me and what we be if we never
grew up hard?
