Your selfishness you apart hell the hands
Through the hell of back
Survival the breaking point the undisputed
Disgust the watched for bitter end
Overcome the will truth and triumph
Breaking grand the discourage comes fast
Destination the vessel the grand
She has fallen
Destroy the wisdom the brigade of survive
Stand your ground
The certain of death
Tides of judgement and tragedy
Get the known the survival
Seeking the solidarity the ground
Killing with of disgust
Revenge by fate
Stick to silence
Fight everyone
With the watched your comes pain
Descent your fighting everyone
Once fighting the battles
Change of the fight everyone
Fight the navigator the battles
The grave maker the changes made
Know the score hell
Blackening fight the reclaiming
Crusader the war your hands
