Change your
Change your face
Change your
Change your face

Beating me, killing me
Change your face
Change your
Change your face

Beating me, feeling me
Ending me, killing me
Be the one to end the fight
The fight

You never wanted
To be a part of this
You never wanted
To be a part of this

Change your, change your face
Beating me, killing me
Change your face
Be the one to end the fight, the fight

Beating me, feeling me
Ending me, killing me
Beating me, feeling me
Ending me, killing me down

You never wanted
To be a part of this
You never wanted
To be a part of this

Choke the face that you fear
Choke the face that you fear
Choke the face that you fear
Choke the face that you fear
