You left me here
Alone in my own world
You left me here
Alone in my own world

From pain
A new light is born
From pain
A new light is born

Your perfect world's
Evading, sedating
Your perfect world's
Evading, sedating

I hate your face
Reminding, despiting
I hate your life
You cast me down, me down

You look at me with one look
And turn your face

To watch you burn
You bury me alive
To watch you burn
You bury me alive

And in your perfect world
And in your perfect world
I'd rather make peace with 3 rounds
I'd rather make peace with 3 rounds

But I'll watch you burn
But I'll watch you

Your perfect world's
Evading, sedating
I hate your life
You cast me down, down

Burn, burn

You bury me
You bury me

Watch you burn
Watch you burn
Watch you burn
Watch you burn

In your perfect world
In your perfect world
I'd rather make peace with 3 rounds

In your perfect world
In your perfect world
I'd rather make peace with 3 rounds

In your perfect world
In your perfect world
I'd rather make peace with 3 rounds

In your perfect world
In your perfect world
I'd rather make peace with 3 rounds
