He spent another night with her
Despite all the times he wouldn't before
Now he's drunk and looking to score
But this ones got a brain, not some damn whore
Not like the ones he's used to This one's older than
four

They think the kid's alright
The type of jock who goes to shows to fight.
He gets good grades in school
His friends all think he's cool

Another drunken knight no shows at which to fight
and so he goes to a girls house he knows
He forces her down. Rips off all of her clothes
A subtle form of rape. She doesn't even know one

Thinks the kid's alright
The type of jock who goes to shows to fight
He gets good grades in school
His friends all think he's cool

Another Drunken Knight No shows at which to fight
and so he goes to a girls house he knows
He pushes her down. He yells! "
Take off all of your clothes!"
She said okay and made a fist and
broke his fucking nose.
