Talking shit is so easy to do
Guess i'm rubber your a fool
Telling lies to be a part of the drama
Guess your not so cool now not so cool are you?

I know who my friends are
Atleast I know so far
I know who my friends are
Atleast I know so far

your twisted rumors can't change anything
nothing can come between me and my friends (till the
end)
Your the last one left the class bell is ringing
we can't hear you cuz we're to busy singing

I know who my friends are
atleast I know so far
I know who my friends are
atleast I know so far (I know its so far away)

I know who my friends are
