

## Scars on Broadway "Funny"

Visit "[Funny](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Funny, how you turned red  
When I first said  
Let's join the dead

Funny, I was driving by  
Feeling really high,  
It made me cry

Funny, there were swastikas  
On Santa Monica  
Where they were scarred.

Funny, that no one said  
That you were dead  
And painted red

Where do you go when you fall on your  
Face it's a place that you never should  
Know

Is there a reason why people should  
Change and then change in the way that They go

If I was there with you for long, would  
You be singing me this song,  
I'm holding on

Where do you go when you fall on your  
Face it's a place that you never should  
Know

Is there a reason why people should  
Change and then change in the way that They go

If I was there with you for long, would  
You be singing me this song,  
I'm holding on
