"Kill Each Other"

Visit "[Kill Each Other](#)" on MotoLyrics.com

I am the one calling inside of your brain
I am the one that makes you feel all the shame
Nevermind my name

We don't wanna believe that the world can still move on
We don't wanna believe that the sun can still shine on

If we're gonna kill each other how we're gonna live
forever?
If we're gonna live forever
how we're gonna kill each other?

I am the one that's calling inside of your brain
I am the one that makes you feel all the shame
Nevermind my name

We don't wanna believe that the world can still move on
We don't wanna believe that the sun can still shine on

If we're gonna kill each other how we're gonna live
forever?
If we're gonna live forever
how we're gonna kill each other?

We don't wanna believe that the world can still move on
We don't wanna believe that the sun can still shine on
