

Scars on Broadway "World Long Gone"

Visit "[World Long Gone](#)" on MotoLyrics.com

Sometimes, I said sometimes
I go crazy like I'm crazy
It takes patience, lots of patience
Then it's over, fucking over

I look at the sky faded
I read the stars

Maybe I don't know
How many people are starving
In this world long gone

Sometimes, I said sometimes
I go crazy like I'm crazy
It takes patience, lots of patience
Then it's over, fucking over

I look at the sky faded
I read the stars

Maybe I don't know
How many people are starving
Maybe I don't know
How many people are starving
In this world long gone

I look at the sky faded
I read the stars

Maybe I don't know
How many people are starving
Maybe I don't know
How many people are starving
In this world long gone
