Scarface the criminal
Hardcore, invincible
Scarface, invincible
The hardcore, criminal

Never lettin nothin stand in the way of me ridin
Animal instinct intentions whenever we grindin
We criminally minded, I'll squeeze ya blindly
Body parts deteriorated when they find ya
Heres your death certificate, might as well sign it
The ending, im the reaper, why you hidin
Im violent I strike with the force of a bomb
And right when you least expect it I come
Uh, i know you see the fire in my eyes
The hunger the hate im trapped inside now die
Everybody in here gotta die, aint nobody in here
escapin my nine
Aint no sence in hidin, you wasting my time
Bitch i gotta handle i came to get mine
Believe if you don't leave no witness's, no crime
Welcome to the part of the sun that don't shine

Scarface invincible
Hardcore, criminal
Scarface, invincible
The hardcore, criminal

Welcome to the day of futures ak
The place where you get caught for shit you get
sprayed
Where hoes got dicks and niggas is bitch made
Takin penitentiary chance to get paid
Children gettin suspended for totin switch blades
Others brutally murdered before the 6th grade
Its 6 million ways to murder 2face
I preffer the method of usin a 12 gauge
And blades crack open your rib cage shawty
High off of wantin this weed and black mildly
The hardcore followin is raisin dead bodies
Murder inc in the muthafucka like irv gotti
And livin hot as we ride, look into my bloodshot eyes

To visualize the blood red skies
Its the border where the live dead die
A brief moment in time, and the sun don't shine
Bottom line

Scarface invincible
Hardcore, criminal
Scarface, invincible
The hardcore, criminal

In the event that you comin with static
I play the map
Comin at you with M11's and automatic
Im worse than the mentally ill, a bad habit
Over killin my victims just to get to see they casket
Raised like a machine, you suckas get blasted
The hardcore serial killin i done mastered
The church of the criminally sick, im the pastor
My dad used to beat up my mom, im a bastard
Now ask her, how does it feel to be a smasher
Me plus me with a strap, that's disaster
For anybody protectin the shit that im after
Empty wishes don't be takin you out, im'a have to

Scarface invincible
Hardcore, criminal

Yea, this gon be the last time i bust a new jack rap
Lets go back into some old shit to show yall niggas you
can't fuck with me
Dig it
