[Intro]:

Suicide

It's like basic, L?

Kinda basic

Suicide

I bet everybody don't like

What we live for ya know?

Drop the Norwegian

Dig that

[Scarface]:

Took my chances but I did my dirt

My advice to any nigga, if you're doin crime then you're
even worse

Just give it up and step the fuck back

Cause in this game you get fame

You gotta start somethin get these niggas off your nut
sack

I'm just a nigga out the hood tryin to have things

What I got upon my feet just scream the brand change

And your excuse is that the money came

Now my excuse was that you were the plain simple
thing

I got you show my homies love though

I just don't fuck around with niggas that I don't know

And you can take it how you wanna take it

I'm from these motherfuckin streets

And the same rules apply in this game you never break
it

My motherfuckin luck all alone at the Crap

And you niggas that wanna try to attack

You steady dyin over some shit and me I'm steady
losin my sleep

Cause niggas ain't familiar with the rules of the streets
and it's a

[Chorus]

Suicide it's a suicide

Suicide it's a suicide

It's a suicide it's a suicide

Suicide it's a suicide

[Scarface]:

To my niggas on the streets grindin
I'm sitting on the sidelines
Too many niggas complainin pointin fingers at the
problem
That's why I hate my baby mama
I'm just a nigga from the very bottom
Skippin class and snortin 8 balls into white powder
Tryin to get in while the motherfucker gettin good
The possibilities of movin out my neighborhood
Don't get me wrong I had them dreams too
But the only thing you do is get your cream fool
Get your motherfuckin cream fool
Niggas ain't no about the ins and the outs
First you get in then you get out
But you stuck in a stance

[Chorus]

[Scarface]:

Now when it's over don't nobody cry
Just enjoy while you live life cause everybody got to die
And when you see me I'll be hella
Been in Corners with my top down checkin out the
changes in the sky
Shootin paper clips at Jupiter
The more I love it's like I'm gettin stupider and stupider
I'm tryin to make the best over a fucked up decision
I'm just a nigga with a vision
Which is to get up and get out gettin my profits
Trying to stay away from these bitches that jock dick
And movin up to move on you outta stay true to em
That's just the way you gotta do it
And you think it's here winning they said they don't
give a fuck
Are you for real when you like it rough
Nigga what the fuck ya know what I'm sayin is real
Now back the fuck up fore you get killed cause it's a

[Chorus]
