Something done bit me on the back of the neck  
And I got a strange feelin' ain't seen nothin' yet  
Well my face is on fire - sweat burnin' my eyes  
Misery's coming and I'm fixing to die  
I'll be eatin' humble pie when the sun goes down  
Pullin' up my pants take a look around  
I can see 100 miles to the north and south  
Can't make enough spit just to wet my mouth

I'm alone  
Nobody standin' by me  
I'm feelin' dry as the breeze  
Nowhere to fill my canteen  
My bones are laughing at me  
You can call me well done  
Nothin's rusting my guns  
In the the valley of the sun

The river stopped flowin' just a runnin' sand  
And the devil starts laughin' this is his land  
Blisters start to bleed up and down my hands  
Hyde wearin' tough enough for takin' a brand  
Rats are gettin' hungry and I'm lookin' brown  
Ground's too hot so I can't sit down  
Rattlesnakes are twitchin' and a wigglin' away  
My last drop of water - this is one bad day

Navarrone  
Should of been there by now  
'Cuz Texas Pete is in town  
He's roundin' up all my cows  
Feel like I'm lettin' him down  
My horse is dead on the ground  
She couldn't handle the run  
In the valley of the sun

And I ain't havin' no fun  
In the the valley of the sun
