Dont go home the wrong way,
cause the wrong way,
will bring you down.

When you go home go the long way,
cause the long way,
is safe so safe and sound.
Thats what I've found.

Dont run home the wrong way,
cause the wrong way,
will bring you down.

When you run home, run the long way,
and the long way,
is safe so safe and sound.
Thats what I've found.

Dont drive home, the wrong way,
cause the wrong way,
will bring you down

When you drive home, drive the long way
Cause the long way,
is safe so safe and sound.
Thats what I've found.
