"Mr Mushroom"

Visit "[Mr Mushroom](#)" on MotoLyrics.com

Mean Mr Mushroom living in a swamp
He cleans his roots in the morning

Mean Mr Mushroom shaved his hair and got a job
He guards your kids while you're sleeping

You can hear him coming and he knows where you are
You can feel him coming when you ride in your car
Of all things he said, you remember he said; it's his
town
I bet that you'll make that sound

The stuff you keep me on
I know that it's wrong
It's always the same now when he calls me up I hit the
ground
The stuff that keeps you up
It will get you down
It's always the same, when he calls me up I hit the
ground

Mean Mr Mushroom he just wanna be your friend
He walked with you in the garden

You can hear him coming and he knows where you are
You can feel him coming when you ride in your car
Of all things he said, you remember he said; it's his
town
I bet that you'll make that sound

The stuff you keep me on
I know that it's wrong
It's always the same now when he calls me up I hit the
ground
The stuff that keep us up
It will get us down
It's always the same now when he calls me up I hit the
ground
