I get these vibes from this girl I know  
She comes around and then she don't wanna go  
We've done some stuff I won't regret to lose  
Well this is it man, I was not supposed  
To get a move on to the city of ghosts  
Where the lights are flashing you

And they say aw!  
It's raining on the ground  
It's raining in the sun  
It's raining on the ground  
It's raining in the sun  
It's raining on the ground

It's getting harder wearing the same clothes  
That your long gone heroes wore

With the lies they feed to you  
When you don't know where you have been and you  
don't  
Know where to go  
You find yourself right in the city I know  
It's the city that have it all

And they say aw!  
It's raining on the ground  
It's raining in the sun  
It's raining on the ground  
It's raining in the sun  
It's raining on the ground

When I grow up I'll call you mine  
They're hanging all the pretty boys tonight  
They hang them high they're searching for the light
