Who killed the eskimos  
Who understood the rules of happiness?  
One step up the hedonic treadmill  
One slip back on the ugly snakeskin

Who raped the great banana  
Growing on the tree of happiness?  
One point for the dark Satanic mills  
One up on the noble savage

Everything we need is here  
Stop trying to succeed  
One point for the dark Satanic mills  
One down for the noble savage

Who owns the pop machine  
The polyester seed?  
Who owns the pepper mills that  
Spice up the prickly cabbage?

Down by the willow tree I joined you where you fell  
You said, staring at the sky, I never knew it was that  
High  
Don't know you very well, you're just another girl  
Never mind, you stupid cow, I wish you hadn't said that  
Now

Down by the willow tree  
There's nothing that could make me happier  
One step up the hedonic treadmill  
One slip back on the ugly snakeskin

Stop trying to succeed  
Stop running round your human hamster wheel  
One point for the dark Satanic mills  
One up on the noble savage

Who drank the pussy milk  
Who bunged the chalk in the frigid buttercup?  
One step up the hedonic treadmill  
One slip back on the ugly snakeskin

Just exactly how long  
Do we have to wait for the trees  
To chop the Nazi axes up?  
And help the frigid buttercup

Weep me and I'll weep you back  
The willow seemed to say  
Swing with the Goodiepal  
Race Pat Pat off the rocks

Down by the willow tree I joined you where you fell  
You said, staring at the sky, I never knew it was that  
High  
Don't know you very well, you're just another girl  
Never mind, you stupid cow, I wish you hadn't said that  
Now

Down by the willow tree I joined you where you fell  
You said, staring at the sky, I never knew it was that  
High  
Don't know you very well, you're just another girl  
Never mind, you stupid cow, I wish you hadn't said that  
Now

Down by the willow tree I joined you where you fell  
You said, staring at the sky, I never knew it was that  
High  
Don't know you very well, you're just another girl  
Never mind, you stupid cow, I wish you hadn't said that  
Now

Down by the willow tree I joined you where you fell  
You said, staring at the sky, I never knew it was that  
High  
Don't know you very well, you're just another girl  
Never mind, you stupid cow, I wish you hadn't said that  
Now
