Familiarity slowly change seems to remain the same.
So
Out of touch, so out of place in this fight to erase what
Haunts. I went soul searching so long ago and all I
found
Was someone I don't know. Viewing myself in the
Mirror never gets easier as my future grows nearer time
Seems to go by so fast always second guessing and
never
Doing what I think is best. The world just wants me to

Give up but I will never lose hope for myself. Fighting to
Survive, the struggle only gets worse Is it my time to
Die, or maybe it's yours? Slowly losing contact with all
The ones I love God only knows how the fuck I'll end up.
A time goes by hate seem to be the only thing inside of
Me. When will this end?
