Maria waits for the moment  
She forgets time's no one's friend  
Maria wishes on stars that fall  
Wishes that time never ends

Don't wait too long, my friend  
Don't waste your time again  
Don't wait too long, my friend  
Waiting for the perfect end

Maria wakes up to nothing  
Just an empty house with no one there  
Maria held out for something  
But she waited too long and now she's scared

Don't wait too long, my friend  
Don't waste your time again  
Don't wait too long, my friend  
Waiting for the perfect end

'Cause it'll never come  
Oh, the best day is here  
Oh, it'll never come  
Just remember, my dear  
Oh, it'll never come  
'Cause your best day is now

Just remember somehow  
Just remember somehow  
Just remember  
Somehow  
Just remember somehow  
Just remember  
Somehow

Somehow  
Somehow  
Somehow  
Somehow
