"Like Animals"

Visit "[Like Animals](#)" on MotoLyrics.com

Why do we treat animals like animals?
Animals treat us so very well
The devoted way they serve us and protect us
When we're nervous they really don't deserve us
All we give them is Hell

Why do we treat animals like animals?
How can people be so inhumane?
What do we do we neglect them we do nothing
To protect them we reject them
Don't expect them to complain

When will we stop treating them like animals?
How can human beings cause so much pain?
We ignore them or we beat them
When we're hungry then we eat them,
It's appalling how we treat them - it's insane

I do not understand the human race
That has so little love for creatures with a different
Face

We humiliate and murder and confine them
We create their wretched status
Then we use it to malign them
When you dress in suede or leather
Or some fancy fur or feather
Do you stop and wonder whether for a Fad
You have killed some beast or other
That you're wearing someone's Brother
Or perhaps it's someone's Mother in which you're clad

We've made the whole world a zoo,
For Man is an animal too.
