On the thirteenth day my true love gave to me (x3,  
Chorus)

Corrugated horse flesh candy in lime marmalade  
Dolphin heads in aspic with a butterfly brocade

(Chorus)

Lyre-birds in a stained glass cage, with lightning rods  
As plumes  
Double-jointed black men playing leap-frog on the  
moon

(Chorus)

Sea foam in a snow white shroud, red herrings round  
it's  
Teeth  
Puffball spores exploding on a bed of burning wreaths

(Chorus)

Venus fly-trap tigers of a tin-foil tapestry  
Timber moles in mustard, warbling in a minor key

(Chorus)
