

Scene 23

"What She Got"

Visit "[What She Got](#)" on MotoLyrics.com

Couldn't believe that you
could see
Your true colors that you
took from a dream
The type of girl
inspectin the world cuz
Her taking comes naturally

Cant get it all for a
wink and smile
You deserve something
more worth while
I'll be the one to go the
extra mile
Just to see you smile

What she got that I aint
got
Walk around like she owns
the spot
Sweats herself cause she
thinks she's hot
What she got that I aint
got baby
She walks around in
designer clothes
Got her hair done and
nails to show
Doesnt matter if your
heart is cold
What she got that I aint
got baby

What she got
I aint got
What she got
That I aint got

Whats it with her that
makes you prefer
That your tied up in
knots,

got you dazed in a blur
Cause you fell for the
oldest trick in the book
Just looks and it's got
you hooked

Now baby I will come much
cheaper then
It's something that you
can never understand
I would treat you like a
man
Baby take my hand and I
will

What she got that I aint
got
Walk around like she owns
the spot
Sweats herself cause she

thinks she's hot
What she got that I aint
got baby
She walks around in
designer clothes
Got her hair done and
nails to show
Doesnt matter if your
heart is cold
What she got that I aint
got baby

What she got
I aint got
What she got
That I aint got

I would climb the highest
mountains baby
Just to have you know
I would swim the deepest
oceans
Baby drowing in the love
I would lose myself
forever
If we could just be
together

What she got that I aint
got

Walks around like she
owns the spot
Sweats herself cause she
thinks she's hot
What she got that I aint
got baby
She walks around in
designer clothes
Got her hair done and
nails to show
Doesnt matter if your
heart is cold
What she got that I aint
got baby

What she got that I aint
got
Walk around like she owns
the spot
Sweats herself cause she
thinks she's hot
What she got that I aint
got baby
She walks around in
designer clothes
Got her hair done and
nails to show
Doesnt matter if your
heart is cold
What she got that I aint
got baby
