If you run away
I wont ask you to stay
You can do whatever makes you happy
I wont bother you again
If you tell me what you mean
When you said that I just drive you crazy

Why dont you say it right to my face then
That you want to be more than just friends

Come on now then
Say what you mean
Life isnt fair
And love isnt clean
I dont care
How lonely youve been
Open your mouth
And say what you mean

Why dont you wake up and just face the fact
That youre afraid I wont call you back

Come on now then
Say what you mean
Maybe its wrong
And maybe obscene
Leave it on my
Message machine
Do me a favor
Say what you mean

Dont avoid it
Dont play the queen
Dont go pretend youre
Pristine and green
Like an actress
Playing a scene
Just let it go
And say what you mean
