"You Do Not Belong Here"

Save the world with me
Don't let it fall too deep
Take a chance for me
You can't leave me here

Pack your things my love
The seeds will not grow in here
The thorns are here to stay
So come with me

Fade away and never return
Can't you see you do not belong here?
Fade away and never return
Can't you see you do not belong here?

Where should we go from here?
And what should I do to be there
Nobody has the answers
Ask yourself

Fade away and never return
Can't you see you do not belong here?
Fade away and never return
Can't you see you do not belong here?
