Why don't you give me something
I don't need your precious rules
Pretty songs and falling fathers
Why don't you give me you

Why don't you give me something
Something real something true
You've wasted all in nothing
Why don't you give me you

Why don't you give me something
We're both so beautiful
We've wasted all in nothing
Why don't you give you

I'm going to roll 'till morning
Me and my stupid song
My stupid song 'till morning
My stupid morning song
