I'm getting used to going outta my mind  
Getting used to tearing up my insides without you  
Crazy sh\*t, creeping round in my skull  
Take a bottle makin' sure that it's full, to cloud you

Let me back down, let me back down  
Let me back down  
Disappointed, once again

Why don't you let me back down, let me back down  
Let me back down  
Disappointed, once again

Trouble coming breaking down my front door  
I twist and turn cause I can't take anymore... disasters  
Shake a fit it's gonna bring me back down  
I'm taking hits and I'm making more sounds about you.

Let me back down, let me back down  
Let me back down  
Disappointed, once again

Why don't you let me back down, let me back down  
Let me back down  
Disappointed, once again

Back then I didn't wanna  
Cause everybody sang the same old song  
But now, I think I wanna  
Cause everybody's gonna sing along
