Competitive mother fuckers I know I don't have a
problem
With your lack of control
And if it's me that you're looking to fuck with
Well I've got news for you
Ya it's your head that I've come to collect
Ya it's my face that you won't forget

This is the way it has to be
I'm sorry you can't be me

Let's climb the ladder of success

I have no face I have no name (WHAT)
I have little to no fame (OH)
I have to face I have no name (WHAT)
I have little to no fame (OH)

Let's climb the ladder of success
